

DEFIBRILLATOR

Roxby-cum-Risby Parish Council in conjunction with North Lincolnshire Council and the Methodist Church are pleased to tell you that a defibrillator is now sited on the Chapel wall.

This is available for any person to use in an emergency. A 999 phone call giving your location and defibrillator number will enable the operator to give you a code to open the box. From that point on the machine literally gives you verbal instruction as to how to proceed.

We would like to thank our North Lincolnshire councillors for their help in obtaining this machine.
