

Environment Agency Update

Roxby Liaison Meeting

28 February 2018

Notifications since 11 October 2017

Date	Number of Reports	Location	Type of Notification	Comment
13 October 2017	1	Winterton	Odour	Site was being inspected that day and odours were observed. However all appropriate measures in place at that time.

Site Visits

13 October 2017

Environment Agency undertook off-site odour monitoring and inspection on site. Odours were detected at 1-2/6 on A1077 in Winterton up by the garage. A gas infrastructure audit was then carried out. At that time the Environment Agency was of the opinion that all appropriate measures to reduce odorous emissions on site were being taken.

20 November 2017

Environment Agency staff had an onsite meeting to discuss the revised surface water plan and observe progress on site.

24 November 2017

Environment Agency staff attending site for a technical meeting.

27 November 2017

Attended site for a pre-application discussion regarding the amalgamation of the transfer environmental permit ('the sidings') and the landfill permit.

20 February 2018

Environment Agency staff attending site for a technical meeting. An odour assessment carried out in Winterton and Roxby residential areas. No odour detected. Wind was in a northerly direction so was not anticipating landfill odours at that time.

28 February 2018

Cancelled due to snow.

Engineering

Deep wells installed and permanent capping has been done and seeded on phase 10

Phase 11 60 pins on north and east flank gone in.

Gas Audit 13 October 2017

An inspection of the gas infrastructure was carried out to assess the adequacy of coverage on site. Environment Agency staff identified that more work was needed to investigate the continued gas migration. The investigation should result in proposals for remediation by Biffa, that the EA can review and either approve or reject.

New Waste Stream

The Environment Agency have recently issued GB Railfreight an environmental permit for a site in Leeds. This waste is being delivered to Roxby by rail. (Further details to be provided by Biffa).

Meetings:

Next Biffa/EA Technical meeting is scheduled for 22 May 2017.

Liaison meeting to be rescheduled. Date TBC.
