ROXBY LANDFILL SITE UPDATE

Dear Local Residents

I would like to provide you with an update on the ongoing works at Roxby Landfill.

The active tipping at Roxby Landfill site has progressed North into the current area of Phase 12 with the Eastern side of this cell is being progressed with all waste inputs being tipped in this location to allow further infrastructure to be installed.

We have now installed 12 deep wells; 600m gas scavengers throughout July enabling the gas extraction system to target multiple levels within the waste mass, increasing the overall gas extraction of landfill gas and the sustainable generation of electricity for the National Grid. The two leachate wells that required remediation have also been retro drilled as part of the engineering works.

The next phase of works include the installation of an additional 70-100 pin wells and an extra 700m of gas scavengers. The capping contractor will then mobilise and deploy circa 20,000m² LLDPE plastic capping; works are due to commence on the 31st August with a 5 week projected timeframe. These ongoing engineering activities will continue to have potential to be an odour risk until the works have been completed. To minimise odour release during these works we will continue to utilise control measures that have proven successful in the past and have phased these works to commence after the Summer Bank holiday.

This will allow us to then operate behind this area, moving away from Winterton, however in the interim we are aware of the close proximity and visible position of the operation. We continue to maintain close dialogue with the Environment Agency concerning engineering works; having received odour complaints and discussions with the Environment Agency.

Phase 12 – Eastern Flank

Proposed LLDPE Capping & Pin Installation.

As you are aware Biffa has an open door policy; however, due to Government advice on COVID 19 we are unable to offer a site visit during this time as we are required to limit social interaction. If you wish to discuss this update further please don't hesitate to contact us by email: - roxbylandfill@biffa.co.uk or contact the site weighbridge on 01724 733336.

We will continue to liaise with the Environment Agency, local councillors and the local MP to ensure all parties are aware of progress and will provide weekly updates to the liaison group.

Regards

James Harrison
