ROXBY LANDFILL SITE UPDATE

Dear Local Residents

I would like to provide you with an update on the ongoing works at Roxby Landfill.

We have now completed the installation of the 120 gas extraction pin in to the newly tipped waste in Phase 12. This has allowed site to deploy an additional 15,000m² of welded LLDPE plastic capping onto Phase 12 in line with the works scheduled to be completed before festive break.

Phase 12 – LLDPE Capping

Operations will be greatly reduced over the Christmas period with rail inputs to cease from 23rd December to 4th January 2021. As well as Biffa management being present on site additional manned security will be employed on the Bank Holidays along with 24hrs CCTV security.

As you are aware Biffa has an open door policy; however, due to Government advice on COVID 19 we are unable to offer a site visit during this time as we are required to limit social interaction. If you wish to discuss this update further please don't hesitate to contact us by email: - roxbylandfill@biffa.co.uk or contact the site weighbridge on 01724 733336.

We will continue to liaise with the Environment Agency, local councillors and the local MP to ensure all parties are aware of progress and will provide weekly updates to the liaison group.

I would like to take this opportunity to wish you a Merry Christmas & Happy New Year.

Regards

James Harrison

Site Manager
